# ManakChand

### Full Stack Web Developer

## PROJECTS

**1. Apna Kirana Store — E-commerce Website**

**Technologies: React.js, Node.js, Express.js, MongoDB, JavaScript, CSS**

**Description:**Work: Developed a grocery e-commerce website concept featuring product listings, customer details, shopping cart functionality, and an admin-oriented product management workflow. Designed a responsive interface for browsing products and managing orders.

**2.Style Cart (Resturent website)**

**Technologies: HTML, CSS, JavaScript**

**Description:**

Developed a Style Cart resturent website with a clean and modern user interface using HTML and CSS. The website showcases products in an organized layout and is fully responsive across all devices.

**3.Marble & Granite Business Website**

**Technologies: HTML, CSS, JavaScript**

**Description:**

**Work:** – Created a business website concept for a marble and granite company to showcase stone products, business information, project images, and customer enquiry details through a responsive interface.

**4.Personal Portfolio Website**

**Technologies: HTML, CSS, JavaScript**

**Description:**

**Work:-**Built a personal portfolio website to showcase professional skills, projects, services, and contact information with a responsive and modern design.
